Military / Defense
Factory Tour
Glendale · Mansfield · Bologna · Salem
Glenair operates the largest high-reliability interconnect manufacturing operation in the United States, allowing us to fully support our broad range of military, defense, and security customers.

Glenair SoCal's most important asset: highly technical staff, fully empowered with all the right facilities and operation resources.

GLEN AIR GLENDALE: Complete vertical integration of manufacturing resources—at home in Southern California since 1956
IN-HOUSE TESTING CAPABILITIES
Glenair UK operates an independently accredited BS9000:CECC:IECQ test lab for internal and third-party product development/design verification and connector qualification including pure air standards.

SAME-DAY SHIPMENT STOCKING
Immediate availability for high-demand connectors and tooling.

HARNESS ASSEMBLIES
for Micro-D, Nanominiature, and fiber optic connectors and cable assemblies.

GLEN AIR UK:
Mission-critical connectors and assemblies for UK and European markets with a special focus on micro and nanominiature flexi assemblies.
GLENAIR ITALIA:
Manufacturing harsh-environment military, nuclear, rail, and industrial interconnects for power, high-speed Ethernet, and fiber optic applications.

TOTAL VERTICAL INTEGRATION includes In-house rubber and thermoplastic injection molding.

ADVANCED PLATING LINE
Capabilities include VG95328-qualified Marine Bronze and “Code J” Tin-Zinc plating—VG95211 and VG95212 qualified cadmium alternative for corrosion-resistant interconnects.

HIGH-CAPACITY CNC MACHINING CENTERS allow Glenair BLQ to provide lightning-fast turnaround on small and custom orders as well as large production runs, all with superior surface finishes and better part quality.

IN-HOUSE TEST LAB with capabilities for both high-voltage as well as high-speed signal product qualification. Credentials include ISO 17025 and others.
GLENAIR SPACE SYSTEMS, SALEM:

Facility includes a 600 m² production floor, 300 m² ISO 8 and ISO 6 clean rooms, an ISO 5 flow chamber (certified to ESD Standard 61340-5-1), with ample accommodation for large mock-up and integration projects.
