Head-to-Head Comparison with D38999

Half the size and weight

- Higher contact density
- Integrated banding platform on connector back end
- Smaller wire gauge (as small as #30)
- Weight for 55 pin contact crimp receptacle:
15g vs 34.6g (D38999/24)
- 67 insert Arrangements Available

Series 80 Standard Features

Mighty Mouse facts and figures

- .076 inch contact spacing
- 10 shell sizes, 3 to 130 contacts
- Aluminum shells (Optional SS)
- Beryllium copper retention clips
- Integral shield banding porch or accessory threads
- Environmental seals
- #22 through #28 AWG Wire
- Rear-release crimp contacts

The industry standard for size and weight reduction in mission-critical electrical / optical interconnect systems

Constant, relentless innovation

SERIES 80 MIGHTY MOUSE

A collage of various Series 80 Mighty Mouse connectors, including different shell sizes, contact configurations, and mounting styles, demonstrating the product's versatility.

Series 80 Mighty Mouse Contacts and Layouts

- 12 Shell Sizes
- 67 Insert Arrangements
- From 1 to 130 contacts
- Layouts with #23, #20, #20HD, #16, #12, #8 Cavities
- Signal, Quadrax, Twinax, Coax, Pitot, Pure Gas, Fiber Optic, and Power Contacts
- Stinger

Series 800 UNF Thread Mighty Mouse

The smallest and lightest Mighty Mouse

- UNF Threaded
- Ideal for test equipment, instrumentation and sensors
- Plugs, crimp receptacles, PCB receptacles, hermetic receptacles, protective covers and cordsets

Series 801 Double-Start ACME Mighty Mouse

Ideally suited for environmental, military applications where legacy MS connectors are too large and too heavy

- Heavy-duty ACME threads for fast mating
- Robust keys
- Best availability at present time
- Standard packaging: in-line, square flange, jam nut, PCB and hermetic designs
- EMI/EMP filter options

Series 811 Mighty Mouse High Density

High-density ultraminiature connectors

- Micro TwistPin contact system
- 600VAC DWV rating
- 7 to 42 contacts
- 3 Amp current rating
- Water resistant to 1m

Series 802 “Aqua Mouse” Submersible Mighty Mouse

3500 PSI submersible connector

- Environmentally Sealed: ideal for 3500 PSI submersible applications
- Threaded UNF Nickel-Aluminum-Bronze coupling connector system
- Viton seals and O-rings
- Stainless steel shells
- Ruggedized packaging

**SHALLOW
WATER**

Series 803 Bayonet Lock Mighty Mouse

Rugged design and ultraminiature profile

- ¼ turn locking
- Ideal for hand-held radios, sensors, test equipment, autosport and other quick-disconnect applications

Series 804 Breakaway Mighty Mouse

Push-pull quick disconnect

- Ideal for helmets, headsets and other breakaway applications
- Calibrated snap-in mating
- Controlled force in receptacle housing
- Receptacle O-ring provides environmental protection
- EMI/EMP Filter Options

New Series 824 Mighty Mouse Locking Quick Disconnect

Specifications	
Current Rating	#23 5 AMPS, #16 13 A., #12 23 A.
Dielectric Withstanding Voltage	#23 500 VAC RMS, #12 and #16 1800 VAC RMS
Insulation Resistance	5000 megohms minimum
Operating Temperature	-65° C to +150° C
Shock / Vibration	100 g / 16 g
Shell-to-Shell Resistance, Nickel Plated	2 milliohms maximum
Durability	2000 mating cycles
Breakaway Force	60 pounds minimum

Series 805 Triple Start Mighty Mouse

Ultra fast mating; meets or exceeds D38999 series III requirements

- Featuring 1 turn to full mate
- Detent clicker mechanism in the plug
- Integral band platform or accessory threads
- EMI/EMP Filter Options

Series 806 Upgraded Environmental, Electrical, and Mechanical Performance

SERIES
806
MIL-AERO

- Integrated anti-decoupling technology
- High-density 20HD and 22HD
- Durable mechanical insert retention
- Radial seals
- Triple-ripple grommet seals
- 200 C temp rating

Series 806 Mil-Aero Fiber Optics

SERIES
806
MIL-AERO

High data rate, reduced size and weight

- Signature size #20HD fiber optic termini
- Available in hybrid arrangements
- Same performance as larger #16 D38999 termini

Series 806
#20HD Termini

D38999
#16 Termini

High-Speed Datalink Solutions for Series 806

El Ochito octaxial for 10GbE, USB 3.0, HDMI, and other video formats

El Ochito[®]

Series 80 Mighty Mouse Cabling Capability

Meeting rigorous application requirements

- Polyurethane Jacketing (LSZH)
-30°C to + 105°C
- Rubber Jacketing (Thermoplastic Elastomer)
-55°C to + 135°C
- Nomex® -55°C to + 260°C
- Halar® -73°C to + 150°C
- Duralectric™ Jacketing -65°C to 225°C
- Custom Overmolds
- Custom bulk anything from shielded twisted pairs, Coax , 50 ohm , 75 ohm , 100 ohm , mixed/color wire gages etc.

Series 80 Mighty Mouse Interconnect Cable Assemblies

Series 80 Mighty Mouse AlphaLink Jumpers

Easy, fast ordering of flex-to-board termination solutions

- Mighty Mouse-to-board flex jumpers
- Catalog designs incorporating Mighty Mouse I/O connectors and solderless spring-contact AlphaLink circuit board connectors

SuperSeal Mighty Mouse RJ-45 and USB

- IP67 sealing in unmated condition
- Superior grounding
- USB back-to-back, crimp contact, PC tail and solder cup terminations available
- USB Micro A, B and AB versions

Series 80 Mighty Mouse USB Solutions

Series 801 double-start threaded

Series 805 triple-start

Series 804 quick-disconnect

Mighty Mouse SuperSeal™ - Micro USB

- Mated IP68 Sealing
- MicroAB and MicroB Interface
- Feedthru or crimp removable contacts

Mighty Mouse SuperSeal™ - USB Type A

- Mated IP68 Sealing
- Enhanced operating temperature
- Rugged shock and vibration performance

Series 807 Mighty Mouse NW

The Nett Warrior Connector

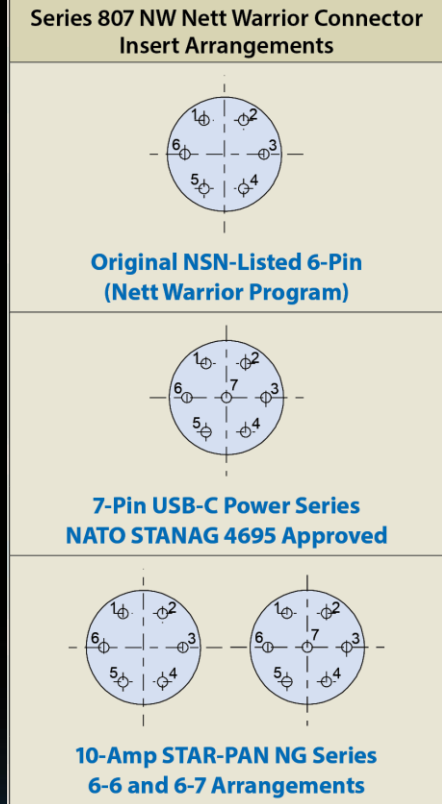

- Originally battle-tested and qualified in Land Warrior program
- Qualified and NSN stock-listed for Nett Warrior
- Adopted as NATO STANAG 4695 standard

Evolution of Series 807 Mighty Mouse NW

From early adoption in US and NATO soldier systems to worldwide industry standard

- Original 6-pin Nett Warrior plugs and receptacles
- Backward-compatible 7-pin series with USB-C power integration and delivery
- New 10 Amp 6 and 7 pin receptacles for higher-current soldier battery, radio, and PAN C4ISR equipment

Series 86 Mighty Mouse SealTac™

Miniature push-pull connectors

- Pressure-sealed tactical soldier connectors and cables with maintenance-free spring-loaded contacts
- Tested to thousands of mating cycles
- 30 PSI open-face / IP68-level sealing (box side)
- Supplied as discrete connectors with solder cup, PCB, and wire termination
- Turnkey point-to-point jumpers

Series 86 Mighty Mouse SealTac™

Optimized SWaP with tactical soldier ergonomics

- High-density micro miniature form factor
- High-durability unlimited life-cycle performance
- Ergonomic, keyed push-pull mating
- Maintenance-free spring contact inserts
- Integrated EMI/RFI ground spring and shield termination band porch
- Aluminum and stainless steel shells
- High-vibration and shock resistant
- Full qualification testing complete and available
